

# Hinged swing door cabinet can be accessed from one side

## MS-SFT-EB

### 1 door

Controllable from one side, with base. Front is sealed by a double-walled hinged swing door with upwardly bevelled handle rail. Hygienic design with rounded corners for ultra-simple cleaning. The hinged swing door cabinet is also used when the deep fat fryer and multi-cooker are installed. Design complies with DIN provision H 2

- No corners in which dirt can hide
- Easy to clean
- Smooth side panels
- Hinged swing doors can be removed without the need for a tool

## Technical data:

Dimensions:      Depth: 300 mm  
                         Width (operating side): 300 mm
